

MEDICAL EMERGENCY HEALTH CARE SERVICES

Original Effective Date: July 2, 2002

Revised Date:

Responsible Office: Foster-Johnson Health Center

Division: Student Affairs

I. PURPOSE/OBJECTIVE

To provide medical emergency health care services to all GSU students.

II. STATEMENT OF POLICIES

A medical emergency on campus requires a call to the University Police Department and/or Foster-Johnson Health Center. If the emergency occurs after hours, University police will contact the local ambulance service and/or Ruston Fire Department Emergency Medical Team (EMT). EMT will determine the extent of the emergency and treat or transfer the patient to a local medical facility.

If a GSU student is admitted to a hospital, the Health Center staff will contact the person listed as the emergency contact, or parent/guardian (if minor). The Health Center staff will periodically obtain patient status information.
